PROFILE

Senior mobile engineer with **6+ years** building beautiful, high-performance apps in **Flutter & FlutterFlow**. A **Top Rated Plus** freelancer on Upwork (100% Job Success, 6,000+ hours) trusted by clients across the US, Europe and the Middle East. I take products from idea to the **App Store & Google Play** — clean architecture, real-time & AI features, and reliable backends with Firebase, Supabase, Xano & GraphQL. I communicate clearly, ship on schedule, and obsess over pixel-perfect, user-friendly experiences.

WORK EXPERIENCE

- **Senior Flutter & FlutterFlow Developer · Freelance (Upwork)** Apr 2023 – Present
 - Hold **Top Rated Plus** status with a **100% Job Success Score** and **6,000+ billable hours** serving international clients.
 - Delivered **25+ production apps** across health, finance, e-commerce, social, logistics & AI using Flutter and FlutterFlow.
 - Shipped and published apps to the **App Store & Google Play** — end-to-end from architecture to store release.
 - Built **AI-powered features** (image recognition, LLM assistants, Gemini) and wired backends with Firebase, Supabase, Xano & GraphQL.
 - Extended FlutterFlow with **custom code & actions**, set up **CI/CD** pipelines, payments (Stripe / PayPal / RevenueCat) and push notifications.
- **Senior Flutter Developer · Cogent Integrated Business Solutions Inc.** Apr 2022 – Mar 2023
 - Built **Favichat**, a premium social app for US celebrities, with real-time chat, media posting and exclusive content.
 - Integrated **PayPal payments** and Instagram-style premium features while ensuring smooth 60fps performance.
 - Worked directly with the client to translate requirements into polished, scalable, production-ready features.
- **Android & Flutter Developer · Devkrushna Infotech** Jan 2019 – Mar 2022
 - Developed diverse consumer apps (photo editing, horoscope, utilities) as part of a product team.
 - Built **native Android (Java)** and cross-platform **Flutter** apps focused on performance and clean UX.
 - Contributed to R&D and cloud-connected solutions across multiple domains.

FEATURED PROJECTS

- Period & Cycle Tracker · Flutter** App Store

Private period, cycle & habit tracker with predictions, symptom logging and secure local storage.
- AI Calorie Counter · Flutter · AI** Google Play

Snap-a-meal AI that recognises food and tracks calories, macros and daily nutrition goals.
- ThorOne — Heavy-Vehicle Booking · Flutter** App Store

On-demand booking platform for trucks, cranes & heavy equipment with real-time tracking and quotes.
- ForexTitan AI & Let's Fix That AI · Flutter · AI** Google Play

AI-driven forex insights & signals, and an AI DIY assistant delivering step-by-step guided fixes.
- Workify · Ledgex AI · Sellora · FlutterFlow + Firebase**

Job-marketplace app + admin dashboard, an AI (Gemini) voice ledger with PDF export, and a multi-purpose admin panel — among 20+ FlutterFlow apps.
- Favichat · Find Meds · AnyShare · Flutter**

Celebrity social platform, a nearby-medicine finder, and a cross-platform Bluetooth/Wi-Fi file-transfer app (iOS & Android).
