Work Experience

Freelancer

Apr 2023 - Present

Senior Flutter/FlutterFlow Developer

Surat

I am a full-time freelancer specializing in Flutter and FlutterFlow development. Over the course of my freelancing career, I have worked on diverse projects across industries such as social media, healthcare, and education, delivering high-quality mobile and web applications. My focus is on creating user-friendly, scalable, and efficient solutions tailored to clients' needs. I take pride in consistently exceeding client expectations, resulting in excellent feedback and satisfaction from those I work with.

Cogent Integrated Business Solutions Inc

Apr 2022 - Mar 2023

Senior Flutter Developer

Surat

I served for one year at Cogent Integrated Business Solutions Inc, where I worked on the Favichat project, a feature-rich social media app designed for celebrities in the US. This app included advanced functionalities such as PayPal payment integration, real-time chat features, and premium social media elements similar to Instagram. Celebrities could post images, videos, and exclusive content while offering premium features to their audience. My role involved ensuring seamless performance and delivering a high-quality user experience tailored for high-profile users.

Devkrushna Infotech

Jan 2019 - Mar 2022

Flutter Developer

Surat

I served at Devkrushna Infotech for around 3 years, contributing to several innovative products as part of a product-based company. During this time, I worked on diverse mobile applications, including photo editing apps, horoscope apps, and many others, showcasing my versatility and technical expertise. I also gained hands-on experience developing Android native applications, ensuring high performance and user-friendly designs. My journey at Devkrushna allowed me to build scalable, impactful solutions across various domains, enriching my skillset and delivering value to end-users.

Projects

Find Meds

2022

Find Meds is a mobile Application supported in Android and iOS. In the app medical store users can create an online store on the app and they can add the location of the store and add the available medicine data as well. Users can search for medicine on the app and can see medicine in the nearest medical store. And in the app, there is a lot of functionality.

AnyShare - Rapid File Transfer

2021

Anyshare is a File transfer app, supporting on PlayStore and appstore. Android and iOS users can transfer files via Bluetooth or Wi-Fi transfer. Send to Android, iOS, or PC with Anyshare is the main feature.
